Make Giving Contagious

The Giving Tree

The Giving Tree project is a life-sized puzzle of a red flowering gum that aims to raise \$25,000+ towards upgrading the Art Gallery gardens to mirror the award-winning standard of the building itself. But The Giving Tree only comes to life as we purchase the trunk, branches, gum blossoms and creatures that inhabit its environment.

Each component of The Giving Tree is available for purchase through the Gallery Shop or as a donation on the rear of this flyer. With greater capacity for live music and theatrical performances, a labyrinth for quiet contemplation, a pocket park for family picnics and school excursions or large scale events such as the Olive Tree Market and Free Art January, the gardens will delight all who visit!

Donors

Maitland Regional Art Gallery is funded and administered by Maitland City Council with support from the NSW State Government through Arts NSW.

It is our ambition to show 1000s of artworks, create 100s of learning experiences across 25 exhibitions annually, and care for the most shared art collection in NSW.

We are particularly grateful to our generous patrons - Ray Wilson OAM and Patrick Corrigan AM - and the more than 300 individuals, families, estates, companies and community organisations who have assisted MRAG so far.

In the words of Margaret Olley AC, we encourage you to make giving contagious! Join us to inspire the next generation of innovative thinking and embrace community belonging in all we do.

MRAG kindly acknowledges the Rotary Club of Maitland Sunrise for their contribution of \$26,000 towards the garden upgrade.
