

# MAKE YOUR OWN GALLERY MODEL

## OUTSIDE

THIS IS THE OUTSIDE OF YOUR GALLERY

Using the shape of the MRAG building as a starting point, create your own gallery

1. Use pencils, textas, paint and whatever you have to design your own gallery outside walls.
2. Does it have any special features?
3. What colours are there? Any special windows or doors?
4. What does the outside of your gallery look like?
5. Is it made of lots of different materials like MRAG?

When you have finished, cut around the dotted lines very carefully.

Now go to the next page to design inside your gallery.
